**art**

**ars, artis** (f. latin) ? art, craft, skilfullness

Besides know-how and knowledge there is something more around which hardly can be described or couched and which makes the difference in this people business named advisory ? we call it 'art' or ARS in Latin ?

Our motto ? the fine art of corporate finance ? honours this grain of 'art' which we strive to add in our projects.

On our website we feature the works of Miguel J. Becerril.
